

Rahlves teams up with Ski Depot

Ski Depot / RaceSkis.com recently announced that it has formed a partnership with Daron Rahlves, one of the most accomplished members of the

U.S. Ski Team who has multiple World Cup wins under his belt, including the famed Hahnenkamm Downhill at Kitzbuhel.

Again this season Rahlves is a force to be reckoned with on the World Cup Ski Cross circuit, he will be "gunning for the gold" at the 2010 Winter Olympics in

Vancouver and "letting it all hang out" during the X Games 2010.

Brothers Ron and Kenny Jacques along with company's

experienced staff of family and lifelong skiing friends, say that they look forward to working with Daron and helping the public get on the same gear that Rahlves races and rips on every day.

SKI Magazine Readers rank Sugarloaf #3 in the East for Overall Satisfaction

The annual SKI Magazine Reader Poll, the oldest and most widely recognized ski resort ranking, has listed Sugarloaf as the number three resort in the East for Overall Satisfaction this year, and in the top ten in eleven different categories. Sugarloaf finished behind Tremblant in Quebec and Smuggler's Notch in Vermont, and was the only Maine resort to reach the top ten in the Overall Satisfaction category.

"While these rankings aren't the be-all end-all for ski resorts, the number three rating is excellent for us and something that we're very proud of," said Ethan Austin, Sugarloaf Communications Manager. "The SKI Magazine rankings are voted on by the readers, so the Overall Satisfaction category is a good barometer of the impression our guests have after a vacation at Sugarloaf. All of our employees work hard throughout the season to provide the best service possible for our guests, and I think this is a testament to that."

Sugarloaf finished in the top ten in 11 of SKI's 18 eastern resort categories, including Snow (#5), Terrain Variety (#2), Challenge (#2), Service (#8), and Value (#8). For SKI Magazine's complete list of eastern resort rankings, visit <http://www.skinet.com/ski/node/101620/list>.

SKI's sister publication Skiing ranked Sugarloaf as the #4 resort in the East in its annual Resort Awards. Skiing rankings are determined by magazine editors.

Sugarloaf is scheduled to open for the 2009/10 winter season on November 20.
