

*Welcome the Day  
Without Saying a Word.*

Windgate window systems are specifically engineered to lower your energy bills. Our optional InnovativE insulating glass system combines low emissivity glass with a warm-edge spacer to optimize the balance between radiant heat loss, passive solar heat gain and visible light transmittance.

As another energy-saving feature, the framing of all our windows is made from vinyl, a natural insulator.

Assurance Plus Lifetime Warranty

When you choose Alliance Window Systems by MVP, you not only have the assurance that your windows are warranted to be free from defects for as long as you own your home, you also have the security of knowing that your windows have been manufactured by a Maine Company who has been building windows for the people of New England for almost 150 years.

## N'ice day to fish

Taking advantage of free ice fishing for residents, a sunny day and four feet of solid ice on Natanis Pond (one of the series of five ponds at Chain of Ponds) Sunday, Feb. 15, were (left to right) longtime area ice fishermen Steve Johnson of Gray, Greg Scott of Freeport, Marty Wyman of Wisconsin and Charlie Meyers of Naples. The men, who were lucky to catch some trout and salmon, are pictured with their ice hut, ice auger and other equipment. (Laura Dunham photo)
