## Chip Carey joins Jackson Hole Resort

TETON VILLAGE — Jackson Hole Mountain Resort recently announced the appointment of Chip Carey as chief marketing officer responsible for sales management, product development, marketing communications and market research. Carey will lead this effort under the direction of JHMR President, Jerry Blann.

Carey will join JHMR from his current brand consulting business in Park City, Utah which he has operated since leaving American Skiing Company in 2007, where he was senior vice president of marketing and sales.

"Chip has worked in the ski industry for nearly four decades and is an established leader with unprecedented experience. With over 25 years at Sugarloaf/USA, Maine six years as VP Marketing and Sales for The Canyons Resort, Park City, Utah which coincided with the Salt Lake Olympics and four years with ASC, he has developed and guided many successful sales, marketing and public relations campaigns. His diverse skill set includes establishing Sugarloaf as a major resort destination despite its remote location, building and launching new brands such as The Canyons

and driving record revenues and skier visits for ASC's family of eight resorts. We look forward to drawing upon this, as we continue to position Jackson Hole as a unique, year round destination resort," stated Jerry

Blann, JHMR President.

"I am excited to join the team at Jackson Hole. They share the same passion for the sport of skiing as I do. It is an honor to be able to work with one of the strongest brands in the ski industry and the recent launch of the new aerial tram continues to strengthen its legendary reputation. While Jackson Hole has successfully developed a globally recognized brand, we will need to spearhead our use of technology to communicate with and engage new and returning guests in a highly competitive marketplace. I am committed to staying ahead of the trends to enable us to tailor appropriate products for our guests and deliver the desired skier visit and revenue results," Carey commented.

Carey and his wife, Nancy, have spent their married life in and around ski resorts. Their passion for the sport was instilled on their three (now) grown children, two of whom now work as a nationally-recognized ski coach and as owner of a nationally-franchised ski rental business. With nearly 70 ski days under his belt during this past winter, Carey and his "skiing family" look forward to moving to Jackson Hole and becoming an active member of the community.

## To whom it may concern

On the date of this notice, I, Richard Nadeau, hereby give permission to my abutting neighbors, John Kelly, Anatoli Popov and their associates the use of my driveway on the northwest side of my property at 53 School Street, Stratton, for access to their adjoining property. I further dispute the claim by the town of Eustis to any rights to this private driveway and demand removal of the road sign which the town has posted designating this driveway as Williamson Lane. I further state my belief that the town has over the years illegally used public funds for the maintenance of this private road.
